

Dan Garrette

dhgarrette@gmail.com

<http://dhg.ai>

EDUCATION

The University of Texas at Austin, Austin, TX

Ph.D., Computer Science

Aug 2009 - Apr 2015

M.S., Computer Science

Aug 2009 - Dec 2011

Advisors: Jason Baldrige and Raymond Mooney

Illinois Wesleyan University, Bloomington, IL

B.S., Computer Science, *with Research Honors*

Aug 2003 - Apr 2006

Minor: Cognitive Science

(completed in 3 years)

SELECTED RESEARCH EXPERIENCE

Google Research, New York, NY

Research Scientist

Oct 2016 - Present

· Machine learning and natural language processing.

University of Washington, Seattle, WA

Post-Doctoral Research Associate. Supervisor: Luke Zettlemoyer

May 2015 - Oct 2016

· Semi-supervised/low-resource learning for NLP.

University of Texas at Austin, Austin, TX

Research Assistant. Supervisor: Jason Baldrige

Aug 2011 - May 2015

· Learning NLP models from varieties of weak supervision.

Research Assistant. Supervisors: Katrin Erk and Ray Mooney

Aug 2009 - Aug 2011

· Unifying logical and distributional semantics for natural language representation and inference.

Google, Mountain View, CA

Intern

May 2013 - Aug 2013

· Machine learning and natural language processing research related to Google News.

University of Maryland Institute for Advanced Computer Studies, College Park, MD

Research Assistant. Supervisor: Philip Resnik

May 2012 - Aug 2012

· Bayesian models of syntactic framing in political writing.

PUBLICATIONS

INVITED TALKS

- *NEH Reading the First Books Symp.*. “How to get a computer scientist involved in your DH project”. May 2017.
- *Ohio State University*. “Exploiting Universal Grammatical Properties to Induce CCGs”. March 2017.
- *Google Research*. “Exploiting Universal Grammatical Properties to Induce CCGs”. August 2016.
- *Amazon*. “Exploiting Universal Grammatical Properties to Induce CCGs”. August 2016.
- *Apple*. “Exploiting Universal Grammatical Properties to Induce CCGs”. August 2016.
- *Lawrence Livermore National Lab*. “Exploiting Universal Grammatical Properties to Induce CCGs”. August 2016.
- *Allen Institute for AI*. “Exploiting Universal Grammatical Properties to Induce CCGs”. August 2016.
- *University of Edinburgh*. “Learning CCGs from Weak Supervision”. June 2016.
- *Workshop on Multilingual and Crosslingual Methods in NLP (at NAACL-2016)*. “Unsupervised Modeling of Code-Switching and Orthographic Variation”. June 2016.
- *Microsoft Research*. “Unsupervised Modeling of Code-Switching and Orthographic Variation”. May 2016.
- *University of Washington*. “Learning CCGs from Weak Supervision”. February 2015.
- *Carnegie Mellon University*. “Learning CCGs from Weak Supervision”. April 2014.

SELECTED OPEN SOURCE PROJECTS

Numerous projects at <http://github.com/dhgarrette>

- | | |
|--|----------------|
| <p>Natural Language Toolkit (NLTK) – http://www.nltk.org/</p> <ul style="list-style-type: none"> · Toolkit for natural language processing in Python. · Authored most <i>semantics</i> code: first-order logic, λ-calculus, DRT, inference, etc. | 2007 - Present |
| <p>Ocular – https://github.com/tberg12/ocular</p> <ul style="list-style-type: none"> · State-of-the-art OCR system for transcribing historical texts. · Authored extensions/features used in our publications. | 2014 - Present |
| <p>Spring Batch – http://projects.spring.io/spring-batch/</p> <ul style="list-style-type: none"> · Application framework for batch processing in Java. | 2008 - 2009 |

OTHER SELECTED PROFESSIONAL EXPERIENCE

Accenture, Chicago, IL

Consultant

Sep 2008 - Aug 2009

- Served as one of four committers to the open-source Spring Batch framework.
 - Designed and developed new functionality. Identified and fixed bugs.
 - Wrote reference documentation and answered questions on the public forum.
- Assisted Accenture projects as a Subject Matter Expert for Spring Batch.
- Designed Spring Batch training curriculum and led on-site training in the US and India.
- Wrote documentation on Accenture’s approach to Java development for use company-wide.
- Certified by Accenture as a Technology Architect.

Analyst

May 2007 - Sep 2008

- Developed large-scale applications in Java.
- After just four months, was made a sub-team leader, formally leading a group of developers.
- After 15 months, promoted to Consultant. (Normal requirement is 2 to 3 years).

TransUnion, Chicago, IL

Intern

Summers 2001-2005

- Added features to the application that interacts with the credit database. Coded in C.

PROGRAMMING LANGUAGES

Skilled: Scala, Python, Java (ordered by frequency of use)

Previous Experience: C, C++, Haskell, MATLAB, Prolog, R, SQL (ordered alphabetically)

ACADEMIC SERVICE

Conference reviewing: EMNLP, ACL, NAACL, EACL, COLING, WNUT, IWCS, Texas Linguistic Society

Journal reviewing: Computational Linguistics, Language Resources and Evaluation

Conference website developer: IWCS-2013

UTCS Admissions Committee – Master’s Degree Program, Spring 2015

HONORS AND AWARDS

Post-Graduate

Best Reviewers List: NAACL-2016

Graduate

Best Talk Award Finalist, NAACL-2013

National Defense Science and Engineering Graduate Fellowship (NDSEG) - 2010-2013

Student Travel Grants: EMNLP-2012, CoNLL-2014

Undergraduate

Alumni Academic Scholarship

Jennings Music Scholarship

Upsilon Phi Epsilon - Computer Science Honor Society

Dean’s List - 6 of 6 semesters

SELECTED TEACHING EXPERIENCE

The University of Texas at Austin

Instructor, Natural Language Processing (CS 378 / LIN 353N) Fall 2013
 · Upper-division undergraduate Computer Science and Linguistics course

Guest Lecturer, Graduate Computational Linguistics (LIN 386M) Fall 2011

Undergraduate Research Advising

Kelsey Taylor Ball 2014 - 2015

Brianna Connelly 2014

Matthew Ebeweber 2014

The United States Peace Corps

Volunteer, Ghana, West Africa 2006 - 2007

· Taught math and English in an underperforming rural junior secondary school.

· Planned and taught HIV/AIDS presentations in rural communities and schools.

Illinois Wesleyan University

Teaching Assistant 2004 - 2006

· Courses on algorithms (in C and Haskell), data structures (in C), and computer architecture.

· Ran study sessions for classes and tutored students.

ACTIVITIES

Post-Graduate

Seattle ScienceSlam - Presenter: *Learning to read 16th century books* (Voted **Best Talk** of the event) Jan 2016

Graduate

Organizer of the Natural Language Learning reading group 2011 - 2015

Undergraduate

John Wesley Powell Student Research Conference - Presenter

Symphonic Winds - Member, Percussion Section Leader for 5 semesters

Civic Orchestra, Opera Orchestra, Titan Band, Percussion Ensemble - Member
